

Providing Natural Light
& Ventilation!

ParLOUR

CURTAIN

The Practical Interior Divider Wall

An easy way to divide a space,
without committing to a permanent wall structure.

Parlour Curtains

Our interior Parlour curtains provide an affordable divider between sections of the building such as the parlour and holding area. The curtains are easy to operate, maintain and they will provide windbreak in turn saving you heating costs in the winter. They store up and out of the way during times of non-use.

Parlour Curtain Benefits:

- Non-rusting hardware.
- Manual or electric operation.
- Washable vinyl material.
- Edge strips seal to stop drafts when curtain is closed.
- Fits all wall types from steel, masonry or standard wood framing.
- Satisfies dairy inspection and building code requirements.

**Systems Designed to Ensure You
Have Optimal Ventilation!**
