

SUN-NORTH SYSTEMS LTD.

The Natural Ventilation Experts

Parlour Curtains *The practical interior divider wall.*

Our interior parlour curtains provide an affordable divider between the parlour and holding area of your dairy building. The curtains are easy to operate, maintain and they will provide windbreak in turn saving you heating costs in the winter. They store up and out of the way during times of non-use.

Product Benefits:

- Non-rusting hardware.
- Manual or electric operation.
- Washable vinyl material.
- Edge strips seal to stop drafts when curtain is closed.
- Fits all wall types from steel, masonry or standard wood framing.
- Satisfies dairy inspection and building code requirements.
